**CCC awning (signs sponsors etc)**

**Scoring**

**Rules and disputes**

**Other**

Don called the meeting to order.

Kent provided racer's book containing old numbers and sign up sheets.

Book is to be passed between race directors. It was decided that one book would be used for both tracks.

Don will check with tracks regarding awning storage. Otherwise it must be carried. Jonathan expressed problems with carrying awning in F body, but such cargo presented no problem for the Mustang owned by PR director.

Race directors to update points. Don will send passwords for directors.

A question regarding the disparity in scoring between tracks resulted in much discussion. No consensus was reached as more info from each track was needed.

Don was to check with PR regarding ability and willingness to reconfigure scoring in an attempt to create a uniform system.

Rules and enforcement were addressed. Don specified the desire to be inclusive. Enforcement of the following rules was specified:

Current tabs on plates

No slicks (street legal tires only)

Mufflers required but not necessarily legal exhaust

Staging lanes to be closed after first cars leave lanes to race.

Disputes: Race directors were to have final authority but designated team captains were to be called to help adjudicate, if time allowed.

Team Captains were to be designated on sign up sheets

It was decided to write up rules and racing etiquette for a handout to be available on race day.
