

March 3, 2012

March's meeting was held at The Ridge Motorsport Park in Shelton.

Meeting started at 10:15 A.M.

Attending were myself, Steve Neel, Steve Kranz, Dave Kranz and Jan Christ.

We met with facility Owner/Pres., Rod Powell. We looked over the facility, including the in-work drag strip and took a ride around the road course.

We talked about the possibility of the CCCA attending a Test-N-Tune some Saturday when the strip opens, which should be mid summer.

They are very interested in the CCCA holding some races at their facility. This of course would not be possible until the 2013 season.

The pits will be completely paved, (NO GRAVEL) The entire ¼ mile will be concrete, with a LONG shutdown for Top Fuelers'. They plan on having garages for rent. Rod suggested approx \$500 per month for a 4-bay garage that four racers could split the cost.

Please talk with your teammates, post on the forums that your teams visit and please share your thoughts with us officers. We are interested in knowing if our membership has interest in racing at Shelton.

Meeting adjourned 11:30 A.M.
